

*Housing committee of Solidarisch in Gröpelingen is looking for dissatisfied tenants who want to become active and change something.*

### **Tenants of vonovia in Gröpelingen get organized**

We are the housing committee of Solidarisch in Gröpelingen.

The housing committee has existed since 2018. Here, tenants of vonovia in Gröpelingen organize themselves. Together we fight against high operating costs, rent increases after modernisations and other problems. We also want to scandalize how vonovia earns money - namely at the expense of its tenants. We want to show that we will no longer accept this! And we are not alone in this.

Recently, the nationwide campaign "voNO!via" was launched, in which individuals, tenants' associations, lawyers and groups like us from different cities are participating. The goal is to work together to prevent vonovia from making profits from operating costs and modernisations.

### **Are you with us?**

We want to build a strong housing committee in Gröpelingen for 2021. To do this, we are looking for people who want to be active and implement the campaign with us in Gröpelingen.

We need people who like to plan, organize, or feel like approaching other tenants and motivating them to stand up for a different rent policy. So that housing is no longer a product that can be speculated with and simply taken away from people.
